Pemalang, Jawa Tengah | fahmiia.work@gmail.com | linkedin.com/fahmi

I'm Fahmi Ismail Atthoilah, a passionate and detail-oriented Mobile Developer with more than 2 years of hands-on experience in building cross-platform applications using Flutter. I specialize in creating clean, efficient, and user-friendly mobile apps.

Throughout my career, I've had the opportunity to work on diverse projects, from concept to deployment, ensuring high performance, scalability, and maintainability. I'm proficient in Dart, state management solutions like Provider and Riverpod, and integrating RESTful APIs and third-party libraries. I also have experience with Firebase or Supabase for backend services and real-time database management.

I'm a lifelong learner who stays updated with the latest trends in mobile development and enjoys solving complex problems with innovative solutions. I thrive in collaborative environments and am always eager to contribute to impactful projects that make a difference.
